issue:1334

2009 Spring/Summer Issue, Vol. 4, No. 3

The publication date is June 30, 2009.

Teaching, Learning, and Assessment Processes

- [(An Almost) Pedagogical Pattern for Pattern-Based Problem-Solving Instruction](#)
- [Assessing Pedagogy in Bioengineering Classrooms: Quantifying Elements of the "How People Learn" Model Using the VaNTH Observation System (VOS)](#)
- [Blogging in the Physics Classroom: A Research-Based Approach to Shaping Students' Attitudes Toward Physics](#)
- [Characterizing Design Learning: A Mixed-Methods Study of Engineering Designers' Use of Language](#)
- [Collaboration and the Importance for Novices in Learning Java Computer Programming](#)
- [Comparing the Efficacy of Multimedia Modules with Traditional Textbooks for Learning Introductory Physics Content](#)
- [Designing an Adaptive Learning Module to Teach Software Testing](#)
- [Mental Models of Recursion Revisited](#)
- [Novices' Knowledge Construction of Difficult Concepts in CS1](#)
- [Optimizing Worked-Example Instruction of Electrical Engineering: The Role of Fading and Feedback during Problem-Solving Practice](#)
- [Peer Assessment in the Algorithms Course](#)
- [Results from the Evaluation of the Effectiveness of an Online Tutor on Expression Evaluation](#)
- [The Four-Domain Development Diagram: A Guide for Holistic Design of Effective Learning Experiences for the 21st Century Engineer](#)
- [Use and Assessment of a Rigorous Approach to CS1](#)

Teachers and Learners

- [A Multi-National Study of Reading and Tracing Skills in Novice Programmers](#)
- [Abstraction Ability as an Indicator of Success for Learning Object-Oriented Programming?](#)
- [An Investigation of the Presence and Development of Social Capital in an Electrical Engineering Laboratory](#)
- [Biases in Interpersonal Communication: How Engineering Students Perceive Gender Typical Speech Acts in Teamwork](#)

- [Can Graduating Students Design Software Systems?](#)
- [Community-Oriented Pedagogy for In-Service CS Teacher Training](#)
- [Diverse Pathways to the PhD: A Study of Women Faculty in the Sciences and Engineering at a Hispanic-Serving Institution](#)
- [Do Senior CS Students Capitalize on Recursion?](#)
- [Encouraging Minority Undergraduates to Choose Science Careers: Career Paths Survey Results](#)
- [Is Modeling of Freshmen Engineering Success Different from Modeling of Non-Engineering Success?](#)
- [Minimal Impact of Organic Chemistry Prerequisite on Student Performance in Introductory Biochemistry](#)
- [Predictors of Female and Male Computer Science Students' Grades](#)
- [Science Majors and Degrees Among Asian-American Students: Influences of Race and Sex in "Model Minority" Experiences](#)
- [The Mystery of "b := (b = false)"](#)
- [The Relations of Ethnicity to Female Engineering Students' Educational Experiences and College Career Plans in an Ethnically Diverse Learning Environment](#)

Courses, Laboratories, Curricula, Instructional Materials, and Learning Technologies

- [Roles of Variables as Seen by CS Educators](#)
- [Reversing: An Essential Heuristic in Program and Proof Design](#)
- [Teaching Roles of Variables in Elementary Programming Courses](#)
- [Closed Laboratories with Embedded Instructional Research Design for CS1](#)
- [Technology Talks: Clickers and Grading Incentive in the Large Lecture Hall](#)

Political, Economic, and Social Influences on Engineering Education

- [Advancing Engineering Education in P-12 Classrooms](#)
- [Integrating Policy and Decision Making into Undergraduate Science Education](#)
